Re - Improvement of Water supply to Mysore City Formation of Service Road

---

With reference to the above, I write to state that in the estimate for Rs 39 49 lakhs, provision for forming the service Road is not included The Service Road along the rising main is absolutely necessary for the maintenance of the single pipe main to immediately attend during emergency This road will also be necess during execution of the work of laying the 24" C I rising main, to convey the pipes for being laid

This would cost Rs 47,800 as per provision made in the estimate for Rs 70 52 lakhs approved by the Special Committee

I request your concurrance in the matter to include this item in the estimate for improvement of water supply to Mysore City, which has now been ~~xxxxx~~ taken up for execution

An estimate for the same is herewith enclosed for favour of countersignature and return As tenders have to be called for several items of work, and this work has to be taken up immediately I request your concurrance in the matter to take up this work in anticipation of sanction to the estimate
